

READ ME FIRST

The worksheets in this folder are progressively named

Nemo sheet(number) and

Nemo sheet (number) answers.

Nemo sheet 1 contains the questions to be used while viewing the movie Finding Nemo as an English-learning exercise. Nemo sheet 1 answers contains the answers to the questions.

These Q&A sheets are alluded to in the Module called “Teaching and Learning English Through mediated Movie Presentation”.

They are downloadable from my website <http://communicative.weebly.com>

They are presented as PDF files that cannot be edited but also do not require Word, and therefore will appear the same on any PC.

They are also presented as Word 2010 files so that they can be edited during presentation. The teacher can for instance add answers to the question sheet during the lesson.

They are presented as PDF files that cannot be edited but also do not require Word, and therefore will appear the same on any PC.

Have fun and please give me feedback on the website above.

Peter Wickham
